

## Mill Smart Carb

**A lower starch, premium pellet designed to meet the needs of a variety of horses.**

- Science based, fixed formulation
- Precision manufacturing at an ionophore free mill
- Top quality, palatable ingredients
- Yeast Culture for improved digestibility
- Zinpro minerals for greater absorption and more efficient utilization
- Highly digestible fiber sources
- Less than 1/3 of energy is from starch/ sugar sources
- Selenium yeast for a safer, more bio-available source of selenium
- Natural Vitamin E for increased absorption, resulting in improved immune function and decreased recovery times

NUTRIENT (As Fed Basis)	
CRUDE PROTEIN, % (min)	14.50
CRUDE FAT, % (min)	5.25
CRUDE FIBER, % (max)	15.50
CALCIUM, % (min)	0.85
PHOSPHORUS, % (min)	0.75
COPPER, ppm (min)	58.00
ZINC, ppm (min)	169.00
SELENIUM, ppm (min)	0.77
VITAMIN A, ppm (min)	6900
NSC, %	18

Smart Carb is designed to meet the needs of a variety of horses. The fiber sources are highly digestible and palatable. Less than one third of the energy in this feed comes from starch sources. This is a drastic change from traditional feeds that derive 40-60% of their available energy level from starch. The balance of the energy in Smart Carb is provided in the form of fat and fiber. This energy partitioning makes Smart Carb an excellent choice for older horses needing a greater provision of fiber in their feed, as well as competition horses needing a quiet source of energy.

**Ingredients:** Wheat Middlings, Soybean Hulls, Calcium Carbonate, Soybean Oil, Cane Molasses, Ground Corn, Dehulled Soybean Meal, Salt, Natural and Artificial Flavors Added, Sodium Selenite, Yeast Culture, Calcium Propionate (a preservative), Dicalcium Phosphate, Monocalcium Phosphate, Zinc Methionine Complex, Copper Lysine Complex, Manganese Methionine Complex, Cobalt Glucoheptonate, Zinc Sulfate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Vitamin B12 Supplement, Riboflavin Supplement, Folic Acid, Biotin, Thiamine Mononitrate, Manganese Sulfate, Copper Sulfate, Cobalt Sulfate, Calcium Iodate.

**Feeding Instructions:** Feed at the rate of 1/2% to 1-1/2% of body weight per day. Amount of feed required will vary depending on season, type of roughage, activity and general condition of the horse.
